
State Employees Helping State Employees

The Working Together Foundation empowers all members of the State of Colorado working family, including employees and retirees. We help one another with emergency financial support in times of crisis.

The Working Together Foundation is funded primarily through the Colorado Combined Campaign. Please remember to choose and donate to Agency #1300 during the campaign.

The Credit Union of Colorado also accepts donations through monthly fund transfers. Direct payroll deduction is also available to most employees.

To learn more about making donations to the Working Together Foundation or our services, please call 303-831-8645, leave a message and your call will be returned or visit www.state.co.us/dhr/wt
