## **OVERVIEW OF THE MAJOR GENERAL FUND CHANGES CONTAINED IN THE SUPPLEMENTAL PACKAGE**

### **Major General Fund Changes Included in the Supplemental Bills**

1. *Corrections* - The supplemental for the Department of Corrections results in a net increase of \$14.0 million General Fund, primarily the result of:
  - An increase of \$9.9 million in the external capacity program as a result of the actual offender population being higher than the level that was estimated last Spring.
  - An increase of \$3.3 million for purchasing pharmaceuticals and for catastrophic medical expenses.
  - An increase of \$1.5 million for increased utility rates and utilization to maintain Ft. Lyon for repurposing, through June 30, 2012.
  
2. *Human Services* - The supplemental for the Department of Human Services results in a net increase of \$1.1 million dollars, primarily the result of:
  - An increase of \$2.0 million based on updated population and case mix projections, and capacity realignment in the Division of Youth Corrections.
  - A decrease of \$1.1 million as a result of revenue adjustments based on the patient mix at the Colorado Mental Health Institute at Fort Logan.
  
3. *Health Care Policy and Finance* - The supplemental for the Department of Health Care Policy and Finance results in a net decrease of \$21.9 million General Fund, primarily the result of:
  - A decrease of \$18.4 million as a result of cost-containment measures implemented by the Department by rule for the Medicaid program, and increased enrollment fees for the Children's Health Insurance Program.
  - A decrease of \$5.6 million as a result of applying federal bonus payments for meeting outreach and retention goals in the Children's Health Insurance Program to offset the need for General Fund in the Medicare Modernization Act State Contribution Payment line item.
  - An increase of \$1.4 million for various changes in Human Services that are supported by Medicaid funds.
  - An increase of \$0.6 million to reverse pharmacy rate reductions in Medical Services Premiums.

## **Decisions Delayed Until March**

1. *Medicaid Placeholder* - The Joint Budget Committee is including a \$61.4 million General Fund placeholder in the supplemental package for Medicaid caseload adjustments impacting the Department of Health Care Policy and Finance. The Joint Budget Committee will make a final recommendation on the exact amount of adjustment necessary for FY 2011-12 in the Long Bill package in that will be introduced in March.
2. *Education Financing* - The Governor requested that the General Assembly make a \$19.8 million adjustment, increasing the amount of General Fund and decreasing the amount of State Education Fund appropriated for school finance in FY 2011-12. The Joint Budget Committee has delayed acting on this until March, after the next quarterly revenue forecasts are available.
3. *Excess Reserve Decision* - The Governor requested that the Joint Budget Committee sponsor a bill to transfer any excess General Fund reserve to the State Education Fund at the end of Fiscal Year 2011-12. The Joint Budget Committee has also delayed acting on this proposal until March.

## How to Read the Department Supplemental Narratives

### Supplemental Narrative Commonly Asked Questions

1. Where do I find out which Department and fiscal year is being changed - look at Oval #1 for the Department, and Oval #4 for the fiscal year.
2. What do the dollar amounts mean? Box #6 shows the change from the current appropriation to the new appropriation. You will need to reference the Supplemental Bill to see what the new dollar amount will be.
3. Where to look to learn what is the reason for the change – look at Box #7 for where to find the description of the change.

Oval #1 - Department's fiscal year total appropriation. The total appropriation includes the Long Bill plus moneys appropriated in any other legislation for that fiscal year.

Oval #2 - This line shows the Department's total appropriation after the changes in the supplemental bill.

# JOINT BUDGET COMMITTEE SUPPLEMENTAL BALANCING BILL

---

**SUMMARY OF H.B. 12-1201:  
CONCERNING ADJUSTMENTS IN THE AMOUNT OF TOTAL PROGRAM FUNDING FOR  
PUBLIC SCHOOLS FOR THE 2011-12 BUDGET YEAR.**

Prime Sponsors: Representative Gerou and Senator Steadman

## **Bill Summary**

The bill increases total program funding for public schools for FY 2011-12 by \$19.8 million, based on the actual student count that occurred in October 2011, and makes related adjustments to appropriations. Absent legislative action, the Department of Education will be required to increase the school finance formula negative factor from 12.9 percent to 13.2 percent, causing per pupil funding to decrease by \$18.44, on average, below the amount anticipated by districts.

Specifically, this bill makes the following changes:

- Section 1 is a non-statutory legislative declaration concerning public school funding for FY 2011-12, stating that:
  - (a) total program funding is \$19.8 million higher than anticipated due to higher than anticipated increases in the total funded pupil count and the number of at-risk students;
  - (b) actual local tax revenues are \$24.2 million higher than anticipated; and
  - (c) the General Assembly intends that the negative factor be adjusted to provide additional funding associated with the actual October pupil count data.
  
- Section 2 amends the provision in the School Finance Act concerning the negative factor. Specifically, this section raises the statutory total program funding "floor" for FY 2011-12 to \$5,229.6 million. This is the amount necessary to ensure that the impact of the negative factor remains at \$774.4 million (12.9 percent of total program funding).

The bill also establishes a statutory total program funding floor for FY 2012-13. This floor amount is intended to serve as a starting point for purposes of preparing the FY 2012-13 Long Bill and for purposes of calculating the fiscal impact of any 2012

## JOINT BUDGET COMMITTEE SUPPLEMENTAL BALANCING BILL

legislation that impacts school finance funding for FY 2012-13. For purposes of simplicity, and consistent with initial legislative action for FY 2010-11, the total program funding floor for FY 2012-13 matches the adjusted floor for FY 2011-12 (\$5,229.6 million). It is assumed that the General Assembly will subsequently amend the statutory total program funding floor for FY 2012-13 – either increasing or decreasing it – through the annual school finance bill.

- Section 3 is the appropriation clause, described below.
- Section 4 is a safety clause to ensure that the FY 2011-12 appropriation changes are effective as soon as possible.

### Fiscal Impact

This bill makes mid-year adjustments to two school finance-related appropriations for FY 2011-12. Local tax revenues for school finance did not decrease as much as projected last Spring, and are thus \$24.2 million higher than anticipated. Of this amount, \$19.8 million will cover the increase in total program funding, and the remaining \$4.4 million will offset state expenditures. The following table details the mid-year appropriation adjustments that are included in Section 3 of the bill.

Adjustments to FY 2011-12 Appropriations for School Finance

## JOINT BUDGET COMMITTEE SUPPLEMENTAL BALANCING BILL

### Background Information

*Why are mid-year changes required for school finance?* While the applicable inflation rate is known at the time the Long Bill appropriation for school finance is established, other data that affects funding for public school finance are not known. The initial appropriation is thus based on estimates of the funded pupil count, the number of at-risk students, and available local tax revenues. Subsequently, school districts conduct a student count in October, county assessors and the State Board of Equalization certify the total valuation for assessment of all taxable property, and school district boards certify the district's mill levy for school finance. By early January within the fiscal year, this data has been finalized by school districts and compiled by the Department of Education. The Department annually submits a supplemental request to make mid-year appropriation adjustments based on the actual data.

*What are the mid-year data adjustments for FY 2011-12?* The following table details relevant school finance data for FY 2010-11 and FY 2011-12. The far-right column identifies the mid-year changes for FY 2011-12 related to the actual student count, and the state and local shares of school districts' total program funding.

*Why does the statutory total program funding floor differ from the "Adjusted Total Program Funding" figure in the above table?* The statutory total program funding floor for FY 2011-12, as adjusted (\$5,229,560,346), serves as the starting point for calculating the negative factor. Actual total program funding after application of the negative factor will be \$5,232,447,623 – \$2,887,277 higher than the adjusted floor. This \$2.9 million difference is the amount of the negative factor reduction that is attributable to those school districts that receive little or no state funding for total program, and thus are not impacted by the negative factor to the same extent as other districts.

# JOINT BUDGET COMMITTEE SUPPLEMENTAL BALANCING BILL

## SUMMARY OF H.B. 12-1202: CONCERNING AUTHORIZATION FOR THE APPROPRIATION OF TOBACCO EDUCATION PROGRAM FUND MONEYS TO THE DEPARTMENT OF HEALTH CARE POLICY AND FINANCING IN ORDER TO OBTAIN FEDERAL MATCHING FUNDS FOR THE COLORADO QUITLINE PROGRAM.

Prime Sponsors: Representative Levy and Senator Lambert

### Bill Summary

The bill allows Tobacco Education Programs Fund moneys (from the Amendment 35 tobacco tax) used for telephone-based smoking cessation coaching and nicotine replacement therapy for Medicaid clients to be matched by federal funds. Current statute only allows Tobacco Education Program Fund moneys to be used by the Department of Public Health and Environment (DPHE). This bill will allow these funds to be appropriated in the Department of Health Care Policy and Financing, and draw down federal matching funds. The bill would then transfer the whole amount, including the additional federal funds to the DPHE to administer the QuitLine services. Currently the QuitLine services are paid for entirely from the Tobacco Education Programs Fund. By adding the federal funds, the bill would effectively double the resources available to the QuitLine, and allow DPHE to perform outreach and serve a larger number of Medicaid clients.

### Fiscal Impact

This bill makes mid-year adjustments to two Departments as outlined in the table below.

## **JOINT BUDGET COMMITTEE SUPPLEMENTAL BALANCING BILL**

**SUMMARY OF H.B. 12-1203:  
CONCERNING THE REENACTMENT OF THE STATUTES THAT AUTHORIZE GRANTS FROM  
THE PRIMARY CARE FUND FOR COMPREHENSIVE PRIMARY CARE SERVICES.**

Prime Sponsors: Representative Gerou and Senator Steadman

### **Bill Summary**

The bill corrects a technical error that occurred in the drafting of SB 11-216 (Hodge/Ferrandino) that dealt with tobacco funding for the Children's Basic Health Plan. In short, the bill preserved the Primary Care Fund, but erroneously eliminated statutes authorizing expenditures from the fund.

Pursuant to Section 24-22-117 (2) (b) (I), C.R.S., the Primary Care Fund receives 19 percent of tobacco tax revenues, and the money is supposed to be spent on grants to primary care providers who serve a large portion of people with low-income, for the purpose of improving the infrastructure of the providers. However, due to a drafting error, SB 11-216 eliminated Part 3 of Article 3 of Title 25.5 that authorized the Department to spend the money in the Primary Care Fund, and so the Department will not be able to grant the roughly \$28 million that will be deposited in the Primary Care Fund in FY 2012-13, unless the error is corrected.

In reenacting the statutes authorizing expenditures from the Primary Care Fund, the bill updates some statutory references and makes grammatical corrections. None of these change the way the program operates from how it existed prior to the enactment of SB 11-216.

### **Fiscal Impact**

The bill does not require any appropriations. The Primary Care Fund already receives 19 percent of tobacco tax revenues. This bill allows the money in the Primary Care Fund to be spent for the originally intended purpose.
